KWARA STATE UNIVERSITY LIBRARY

WELCOME TO MUHAMMADU BUHARI LIBRARY COMPLEX

Our Mission

To support the University's teaching, research and community development activities through the provision of high quality resources and services.

Our Vision

To become one of the leading resource in the world for teaching, learning and research.

KWASU Library was founded in 2009. On 6th July 2019, the new library complex named after President Mohammadu Buhari was commissioned and was put into full operations in January 2020. Currently, the Kwara State University Library System consists of the Main Library, Law Library, Medical Library at Malete and a Reading Room each at the Centre for Ecological & Environmental Research Management Studies (CEERMS), the Centre for Pre-Degree/Remedial Studies and several departmental libraries. There is also a physical e-Library building built through the ETF 2010 intervention since year 2012.

KWASU Library is an iconic piece of architecture that comprise indoor and outdoor reading and study spaces, seminar rooms, staff offices, Centre for innovative Teaching & research and the Centre for documentation and archiving. It houses a museum and art gallery, where various arts and crafts are being displayed for exhibitions.

The main library has a capacity for more than 100,000 volumes of books and journals. The sitting capacity is above 4,000. The outdoor reading space (enclosed and open-air) provided for 24 hours reading have a capacity for about 200 students. There is also a PG study room for our postgraduate students.
